

Dear ANC members and authors,

Thank you very much for continuing your supports for ANC.

I am very pleased to tell your latest citation update.

We published total 68 articles in 2017 and 2018. The total citations based on the Web of Sciences are currently total 24. Therefore, the estimated impact factor is currently **0.35**.

Since it is now in 2019, the estimated impact factor should be based on the citations related to published article in 2017 and 2018. Therefore, please cite the ANC articles published in vol. 3, 2017 and vol. 4, 2018.

In terms of obtaining the impact factor, we should aim to catch up JNC in terms of IF. JNC raised IF 3.93 in 2018 and thus we should aim to have total 272 citations until end of 2019.

Your citation would be great help for the ANC.

Kind regards

Keiichiro Yoshinaga, MD, PhD, FACC, FASNC
